

DISCOVERY SU ƏSASLI İÇ SƏTH BOYASI (WATER-BASED INTERIOR SURFACE PAINT)

Introduction: Acrylic-base, water-thinned, silicone, highly-resistant decorative matt paint.

Characteristics: Discovery is resistant, anti-bacterial, silicone decorative interior surface paint that doesn't crack and is highly adherent on any surface, doesn't leave traces of brush and paint roller and doesn't leak when applied.

Technical characteristics:

Color: See color catalogue.

Brightness: Matt

Dissolved matter, (mass) : 58-59%

Particular weight (g/cm³, 20°C): 1.67-1.68

Viscosity (KU, 25°C): 119-121

pH (25°C): 8.0-9.0

Instructions for use: Applied surface should be cleaned from other items and old paint. When the surface is properly prepared for last coat: the paint will adhere stronger, will be smooth and perfect, dry equally and last longer. Initially cracks are filled with PANEXTER. 2-4 hours after applying PANBİNDER or PANPRİMER, Discovery is thinned with 15% water and applied with roller or brush with at least an hour interruption. Temperature of the surface and environment should be between 5-30°C while applying.

Dry-out period: First dry-out – 1 hour, complete dry-out – 20 hours.

Consumption: 12-14 m²/lt for single coat subject to absorption capacity of the surface.

Storage period: May be stored closed in its original container away from direct sunlight for 2 years, provided that freezing is avoided. For more information please refer to Technical Support Section.

Safety Measures: Avoid eye contact and ingestion. Keep out of the reach of children

Packaging information: 2.5lt, 7.5 lt, 15 lt

- Owns AZS-034-98 Standard
- Owns ISO 9001:2008 document
